

ATLAS OF HUMAN ANATOMY

INDERBIR SINGH

KEY SELLING POINTS

- ◆ Hundreds of full colour illustrations giving structural perspective and emphasis on relationship rather than texture
- ◆ Radiology section containing 30 x-rays with clear simple explanations
- ◆ Free CD Rom supplement containing images of skull anatomy

BOOK INFORMATION

ISBN: 1 904798 284
 Pub Date: April 2005
 Format: Paperback
 Extent: 422 pages

There are several classic atlases of human anatomy available to the student, with excellent illustrations. However in most cases they are the work of an artist, seeking to present each detail to be seen in the field of view. And such drawings may not be useful to the uninitiated student of anatomy.

An anatomy student needs illustrations that give a clear depiction of the layout of individual structures, unobscured by detail that detracts from the main relationships within those structures. Such illustrations can be produced only by a very close collaboration of artist and anatomist and better still if the anatomist himself draws them. This atlas is the result of Dr. Singh's life time's work as both anatomist and artist.

Contents:

Upper Extremity Breast • Pectoral Region and Axilla • Back and Scapular Region • Arm • Forearm and Hand • Main Nerves.

Lower Extremity Superficial Structures • Thigh, Front and Medial Side • Gluteal Region, Back of Thigh and Popliteal Fossa • Front and Lateral Side of Leg and Dorsum of Foot • Back of Leg and Sole

Thorax Introduction • Thoracic Wall • Trachea and Bronchi • Mediastinum • Lungs and Pleura • Heart and Pericardium • Arteries and Veins • Oesophagus

Abdomen Overview of Abdomen • Anterior Abdominal Wall • Perineum • Stomach and Intestines • Liver and Biliary Apparatus • Pancreas and Spleen • Blood Vessels of Gut • Kidneys • Arteries and Veins of Abdomen • Pelvic Wall • Pelvic Viscera • Lymph Nodes and Lymphatic Drainage

Head and Neck Scalp and Face • Overview of Head seen from Lateral Side • Overview of Neck • Cranial Fossae and Orbit • Eyelids, Conjunctiva and Lacrimal Apparatus • Parotid, Temporal and
