ISBN: 1 904798 195
Pub Date: February 2005
Format: Hardback
Extent: c.1000 pages
900 Colour figures * 250 tables *
150 colour photomicrographs *

Foreword by Ivan Damjanov, MD, PhD – Book Review Editor of the journal Modern Pathology, the official journal of the United States-Canadian Academy of Pathology and prestigious best selling author.

This is the 5th Edition of a book which has already established itself as the classic pathology textbook in India. This new edition has been updated, and improved to meet the highest standards of quality and information now required by pathology courses around the world. Editorially this new edition carries particular emphasis on molecular pathology and genetics in the pathogenesis of various diseases, and the pathological discussions of each organ or system is preceded with a short description of its structure and function. The material is integrated with extensive page cross references between chapters and the whole book has been thoroughly re-edited, with new images, illustrations and line drawings.

The book is accompanied by the **FREE** student revision aid "Pathology - Quick Review and MCQs" and therefore together as a package **Mohan: "Textbook of Pathology 5E"** will be a major contribution to the required reading of undergraduate medical students worldwide.
